For best results, use professional vector programs like Illustrator, Coreldraw, or similar. Home programs like MS Word/Publisher don't have the right tools or colour palette. MS Excel is for spreadsheets. MS Powerpoint is for screen slideshows. PhotoShop is for editing bitmap images.

(1) Use the **allBIZ ONLINE EDITOR**

Put **bleed*** items right to the very edge of the drawing space (they should go beyond the red CUT MARGIN)

Size : 90 x 55mm (sta | Front | Back

Shapes

PUT "BLEED" ITEMS RIGHT TO EDGE OF DRAWING SPACE
(so they hang over the finished size by 5mm)

> ***** **BLEED: any object that goes right to the edge of the document. The object must actually go BEYOND the finished size by 5mm ("bleed over" the edge).**

(2) Use **ILLUSTRATOR** (or other vector software)

1 - PAGE SIZE: 1660 x 960mm, **BLEED AREA:** 5mm
2 - Make a PAGE CUT BOX: 1660 x 960mm, 1pt stroke, Magenta
**3 - SAVE AS:** PDF (best if /X-1A). Tick **"Trim/Crop marks"** and **"5mm bleed"**

MAKE SURE YOUR FILES ARE PRINT READY!

☐ **PDF** (PDF/X-1a is better)

☐ **FONTS** embedded (or converted to Curves/Paths/Outlines)

☐ **IMAGES** 300ppi (if your image wasn't enlarged, 150ppi)

☐ **CMYK** colour only (do not use RGB or Spot or mix them)

☐ **FLATTEN** transparencies/layers (or you will get odd stripes/blocks)

☐ **BLEED - 5**mm, and 3mm Safe Area away from edge for text

☐ **TRIM BOX** (for bleed jobs) - set to final cut size (or your job will cut wrong)

Your job could be **ruined** by bad files. Fuzzy, wrong colours/fonts, missing bits and more. Wrong files could be **rejected/charged a processing fee.**

✓allBIZ
SUPPLIES

If you have to create the file manually using other software, your finished file should match the specs below:

1. **FINISHED SIZE** (1660x960mm)

2. **BLEED** 5mm all around

3. **SAFE TEXT AREA (3mm from edge)** Text outside this area may be too close to the edge for trimming

4. **PAGE SIZE: 1670x970mm** (includes 5mm bleed)

5. **MAGENTA BOX 1660x960mm**

POS COUNTER UNIT

IMAGE SIZE: **1660mm x 960mm**

Image must be exact size and fixed with magnetic tape only
